

WHY GEOGRAPHY?

Students who study Geography possess an extremely marketable and sought after range of knowledge and understanding of the world around them.

The AGCE Course focuses on the interrelationships between people and their varied environments and the questions, issues and problems which arise from these relationships.

Geographers develop enquiry, decision making, fieldwork and research skills, which will prepare them well for Higher Education courses or a wide range of career choices.

They also learn to appreciate the significance of human values in decision making and to think critically on a range of issues.

SPECIFIC ENTRY REQUIREMENTS

- Students must achieve a minimum of 5 GCSEs (Grades A* - C) including English and Maths
- Grade B in GCSE Geography
- Satisfactory level of competence in Mathematics and English
