

# Health & Social Care Curriculum

	Mandatory units for all courses
	Foundation Diploma & Diploma units
	Diploma only units

In Level 2 Health & Social Care, students look at various topics that directly link to the Level 3 curriculum including: PIES across the life stages & factors affecting development, Health & Social Care Service & Values and Health & Wellbeing

There are also elements of the Relationships & Health Education curriculum that link to the Level 3 Health & Social Care curriculum such as Respectful Relationships, Mental Wellbeing & Drugs, Alcohol & Tobacco

There are also specific links to Careers through teaching of care skills & work experience elements.
